Authorization for this examiner's amendment was given in a telephone interview with Mark Burns on 1 March 2005.

The application has been amended as follows:

- On page 5 of the Specification under "Brief Description of the Drawings" insert the following text on a new line between the description of Figure 7 and the description of Figure 8:

"Figure 7A is a partial view of the assembly illustrated in Figure 7."

- On line 28 of claim 1:

Delete the coma: -,-

Insert "a back portion of" before the limitation "said interface means"

2. The following is an examiner's statement of reasons for allowance: the claims are allowable over the prior art of record because the prior art of record fails to show or suggest, either singly or in combination, a rotatable child safety seat comprising a base means and an interface means. The base means includes an elongated aperture extending through the top and bottom surface, a first guide means disposed on the upper surface and a releasable lock means. The upper surface of the interface means is configured to operably and retainably receive a vehicular child safety seat thereto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
